Learning Style: On Demand

Technology: Microsoft

Difficulty: Beginner

Course Duration: 2 Hours

## Microsoft Access: Creating a Database

### About this course:

What is Microsoft Access? Microsoft Access is a database management system (DBMS) from Microsoft that combines the relational Microsoft Jet Database Engine with a graphical user interface and software-development tools. In this course, students will learn how to create and design databases with this starter course. Learn the basics of formatting, queries, functions, formulas, and analyzing data within Microsoft's database program.

## **Course Objective:**

After completing this course, students will have a working understanding of:

- Creating a Relational Database
- Table Creation
- Setting Up and Modifying Tables
- Creating Simple Query's
- Modifying Simple Query's
- Creating Forms

## **Audience:**

This course is intended for:

- This course is meant for basic students of Access.

## **Prerequisites:**

- There are no prerequisites for this course.

## **Suggested prerequisites courses:**

- [Access 2013 Beginner](#)

## **Course Outline:**

**Lesson 1: Before Creating a Database**

**Lesson 2: Creating a Relational Database**

**Lesson 3: Table Creation**

**Lesson 4: Relationships**

**Lesson 5: Testing Your Database**

**Lesson 6: Setting Up and Modifying Tables**

**Lesson 7: Creating Forms**

**Lesson 8: Creating Simple Query's**

**Lesson 9: Modifying Simple Query's**

## Credly Badge:

### **Display your Completion Badge And Get The Recognition You Deserve.**

Add a completion and readiness badge to your LinkedIn profile, Facebook page, or Twitter account to validate your professional and technical expertise. With badges issued and validated by Credly, you can:

- Let anyone verify your completion and achievement by clicking on the badge
- Display your hard work and validate your expertise
- Display each badge's details about specific skills you developed.

Badges are issued by QuickStart and verified through Credly.
