IC3 GS4: Key Applications

About this course:

First, let's have an insight on IC3 GS4: Key Applications, IC3 Global Standard 4 (GS4) is the newest release in the IC3 family of digital certification exams. GS4 aligns the IC3 standard to the most current and relevant digital literacy requirements, and addresses several new concepts common to digital literacy, such

as: social media. This certification course will cover the basics of Key Applications. Students will get an overview of application features, working with word processing and spreadsheets. They will also learn about databases, collaboration and how to make a presentation. IC3 certification is an excellent way to tell teachers, potential and current employers, academic institutions, government agencies, and the whole world that you have the digital literacy skills to function successfully, effectively, and productively. This course also prepares the students for the IC3 Global Standard 4 (GS4) exam.

The average salary for Certified Internet and Computing Core is **\$59,354** per year.
