About this Course:

After you master the basics of using Microsoft Word 2016 such as creating, editing, and saving documents; navigating through a document; and printing, you're ready to move on to tackling the more advanced features. These features enable you to create complex and professional documents with a consistent look and feel. They

also enable you to automate tedious tasks such as preparing a letter to send to every customer of your organization.

Creating professional-looking documents can help you give your organization a competitive edge. Implementing time-saving features such as document templates and automated mailings helps your organization reduce expenses. Mastering these techniques will make you a valued employee in your organization.

Course Objectives:

In this course, you will learn to create and modify complex documents and use tools that allow you to customize those documents.

- Organize content using tables and charts.
- Customize formats using styles and themes.
- Insert content using quick parts.
- Use templates to automate document formatting.
- Control the flow of a document.
- Simplify and manage long documents.
- Use mail merge to create letters, envelopes, and labels.

Audience:

- This course is designed for students who wish to use Microsoft Word to create and modify complex documents and use tools that allow them to customize those documents.
