## Risk Management Framework (RMF)

### About this Course:

QuickStart offers the most in-depth course available for students looking to learn about the Risk Management Framework for DoD Information Technology. Risk Management Framework (RMF) describes the DoD process for identifying,

implementing, assessing, and managing cybersecurity capabilities and services, expressed as security controls, and authorizing the operation of Information Systems (IS) and Platform Information Technology (PIT) systems.

## Course Objective:

After completing the QuickStart's RMF Course, participants will be able to:

- Understand the Risk Management Framework for DoD IT Authorization process
- Understand FISMA and NIST processes for authorizing Federal IT systems
- Explain key roles and responsibilities
- Explain statutory and regulatory requirements
- Apply these principles to real-world activities and situations

## Course Outline:

Chapter 1: Introduction

Chapter 2: Cybersecurity Policy Regulations and Framework

Chapter 3: RMF Roles and Responsibilities

Chapter 4: Risk Analysis Process

Chapter 5: Step 1 Categorize

Chapter 6: Step 2 Select

Chapter 7: Step 3 Implement

Chapter 8: Step 4 Assess

Chapter 9: Step 5 Authorize

Chapter 10: Step 6 Monitor

## Credly Badge:

### Display your Completion Badge And Get The Recognition You Deserve.

Add a completion and readiness badge to your LinkedIn profile, Facebook page, or Twitter account to validate your professional and technical expertise. With badges issued and validated by Credly, you can:

- Let anyone verify your completion and achievement by clicking on the badge
- Display your hard work and validate your expertise
- Display each badge's details about specific skills you developed.

Badges are issued by QuickStart and verified through Credly.
