Difficulty: Advanced

Course Duration:

Practice Exam - AZ-304: Microsoft Azure Architect Design

About this Exam:

Microsoft Azure Architect Design practice test is designed to help candidates prepare for and pass the Microsoft AZ-304 exam.

This exam is aimed at Azure Solution Architects who want to validate their skills.

Skills Measured:

Successful candidates will have mastered the following concepts:

- Design Monitoring
- Design Identity and Security
- Design Data Storage
- Design Business Continuity
- Design Infrastructure

Who should take this Exam?

Candidates should have knowledge of designing and implementing solutions that run on Microsoft Azure, including aspects like compute, network, storage, and security.

They should be able to demonstrate expertise of IT operations, including networking, virtualization, identity, security, business continuity, disaster recovery, data platform, budgeting, and governance. Furthermore, candidates should also have experience with Azure Development.

Certifications:

This practice exam will prepare you for Microsoft Azure Architect Expert Certification. To get the Official Exam Voucher for this certification, please contact [Support](#).
