## **Data Loss Prevention - Tips and Techniques for the Mitigating Data Loss in the Cloud**

### **About this course:**

In this webinar Joseph Holbrook, a Cloud Native Subject Matter Expert(SME) will provide insight into “Data Loss Prevention Tips and Techniques to mitigate Data Loss in the Cloud” to provide for a well fortified cloud environment. Utilizing the

common but also not so common tips and techniques such as using an “AUTOMATED validated DLP policy” can mitigate common human errors and has been proven to reduce exposure.

The top 5 Data Loss Prevention tools for On Premises users need to use to help reduce company risk to data loss exposure. Data loss prevention software detects, prevents and monitors potential data breaches and data ex-filtration transmissions. As an added bonus, attendees will receive a FREE DLP Prevention Checklist that can be used immediately and Data Loss Prevention Practice questions for preparing the CISSP exam!

## Course Objective:

- According to Risk Based Security there over 3,813 data breaches that were reported through June 30, exposing over 4.1 billion records. Compared to the midyear of 2018, the number of reported breaches was up 54% and the number of exposed records was up 52%.
- Marriott’s data loss - In November 2018, Marriott International stated they had a major data loss of 500 million customers and that cyber thieves had stolen data such as contact info, passport number and credit cards.
- Establishing your compliance requirements can provide for an immediate DLP baseline and provide immediate value for your DLP project.
- DLP Software can even detect phishing & malware threats, prevent account takeovers, personal data loss and even monitor for unsanctioned SaaS apps

## Prerequisite:

- There are no prerequisites required for this course

## Course Outline:

## Credly Badge:

### Display your Completion Badge And Get The Recognition You Deserve.

Add a completion and readiness badge to your LinkedIn profile, Facebook page, or Twitter account to validate your professional and technical expertise. With badges issued and validated by Credly, you can:

- Let anyone verify your completion and achievement by clicking on the badge
- Display your hard work and validate your expertise
- Display each badge's details about specific

skills you developed.

Badges are issued by QuickStart and verified through Credly.
