Learning Style: On Demand

Provider:

Difficulty: Beginner

Course Duration: 3 Hours

Fundamentals of HTML

About this course:

HTML5 will become the new HTML standard version in the coming years. To understand HTML5 you must have knowledge of HTML and how it works. HTML5 modifies HTML to allow you to create more modern websites. You will learn the basics, then create real projects that use the skills you just learned so you can understand how HTML works in the real world. You will also get access to all lesson source codes so you can deconstruct each lesson -- another valuable learning and time saving tool.

The average salary for Front End Web Developer is **\$88,680** per year.

Course Objective:

After completing this course, students will have a working understanding of:

- The Basics of HTML
- Block Level Elements
- Line Break and Spacing
