Administering Unified Contact Center Enterprise with CVP Part 2 v11x (AUCCE2)

About this course:

Administering Cisco Unified Contact Center Enterprise Part 2 (AUCCE2) is an Advanced 5-day instructor-led course for system engineers and customers who will be involved with day 2 support of a UCCE solution deployed in a CVP

comprehensive environment. This Cisco UCCE course gives the learner an understanding of the requirements, resources and tools required to perform complex adds, moves and changes in the inbound/outbound UCCE environment.

This course is intended for those performing advanced administration of the solution, or who may be responsible for Level 2-3 support of the solution. The AUCCE Part 1 course or equivalent prior experience is a prerequisite for attending this course. The overall goal of this online Cisco IT class is to develop advanced administration of the solution by a deeper exposure into the technical operational requirements and the tools used to configure and ensure functionality.
