Microsoft 365 Messaging (MS-203)

About this Course:

This course examines the key elements of Microsoft 365 messaging administration, including message transport and mail flow, messaging security, hygiene, and compliance, messaging infrastructure, and hybrid messaging. This course is designed for IT Professionals who deploy and manage the messaging infrastructure for Microsoft 365 in their organization.

Course Objectives:

After completing this course, students will be able to:

- Configure and manage the transport pipeline
- Manage and troubleshoot mail flow and transport issues
- Manage message hygiene and compliance
- Manage authentication for messaging
- Configure organizational settings and sharing
- Manage mobile devices
- Manage role-based permissions
- Create and manage recipient objects and resources
- Plan, implement, and troubleshoot public folders
- Plan a hybrid environment
- Perform mailbox migrations
- Deploy and troubleshoot a hybrid environment

Audience:

- The Messaging Administrator deploys, configures, manages, and troubleshoots recipients, permissions, mail protection, mail flow, and public folders in both on-premises and cloud enterprise environments.
- Responsibilities include managing message hygiene, messaging infrastructure, and hybrid configuration and migration. To implement a secure hybrid topology that meets the business needs of a modern organization, the Messaging Administrator must collaborate with the Security Administrator and Microsoft 365 Enterprise Administrator.
- The Messaging Administrator should have a working knowledge of authentication types, licensing, and integration with Microsoft 365 applications.

Prerequisites:

- This course is designed for persons who are aspiring to the Microsoft 365 Messaging Administrator role.

Course Outline:

This Course Includes:

- Course Introduction
- Chapter 1 - Managing Messaging Infrastructures
- Chapter 2 - Managing Recipients
- Chapter 3 - Managing Mailbox Databases
- Chapter 4 - Understanding Messaging Authentication
- Chapter 5 - Managing Client Access
- Chapter 6 - Managing Transport Services
- Chapter 7 - Implementing High Availability and Disaster Recovery
- Chapter 8 - Threat Protection
- Chapter 9 - Compliance
- Chapter 10 - Deploying Exchange Hybrid Environment

Credly Badge:

Display your Completion Badge And Get The Recognition You Deserve.

Add a completion and readiness badge to your LinkedIn profile, Facebook page, or Twitter account to validate your professional and technical expertise. With badges issued and validated by Credly, you can:

- Let anyone verify your completion and achievement by clicking on the badge
- Display your hard work and validate your expertise
- Display each badge's details about specific skills you developed.

Badges are issued by QuickStart and verified through Credly.
