Course Duration: 2 Hours

PowerPoint 2016 Advanced

About this course:

In this course, proficient users of PowerPoint 2016 will learn advanced functions of the application and how to apply them. PowerPoint 2016 is a visual and graphical application, primarily used for creating presentations. With PowerPoint, users can create, view, and present slide shows that combine text, shapes, pictures, graphs, animation, charts, videos, and much more. PowerPoint is a standard for business people of all types as anyone who needs to make a presentation needs to know how to effectively use this software. PowerPoint helps you create visual displays to accompany and enhance your presentations.

The average salary for Power Point Designer is **\$69,497** per year.

Course Objective:

After completing this course, students will be able to:

- Create customized presentations with templates.
